

## Safety plan treatment manual to reduce suicide risk: Veteran version

Date: 2008(For resources, this is the publication date. For programs, this is the date posted.)

### Information

Type: Manual  
Author: Stanley B, Brown G.  
Publisher: Department of Veterans Affairs

### See This Resource

[Safety plan manual: Veteran version \(99.73 KB\)](#) [1]

This manual describes a brief clinical intervention, safety planning, that can serve as a valuable adjunct to risk assessment and may be used with veterans who have made a suicide attempt, have suicide ideation, have psychiatric disorders that increase suicide risk, or who are otherwise determined to be at high risk for suicide. It is intended to be used by VA mental health clinicians, including suicide prevention coordinators, as well as other VA clinicians who evaluate, treat, or have contact with patients at risk for suicide in any VA setting.
