National Strategy for Suicide Prevention implementation assessment report

Date: 2018 (For resources, this is the publication date. For programs, this is the date posted.)

This assessment was performed by the Action Alliance’s National Strategy for Suicide Prevention Implementation Assessment Advisory Group (NSSP IAAG). It reports on aggregate efforts to implement the goals and objectives of the 2012 National Strategy as well as providing case examples from states, tribes and communities. It provides recommendations centered around infrastructure, Blueprint for Community Action and comprehensive suicide prevention.
