

Mental health-related physician office visits by adults aged 18 and over: United States, 2012–2014. (Data Brief, No. 311)

Date: 2018 (For resources, this is the publication date. For programs, this is the date posted.)

Information

Type: Fact Sheet/Issue Brief

Author: Cherry, D., Albert, M. & McCaig, LF

Publisher: National Center for Health Statistics, Centers for Disease Control and Prevention

This data brief examines adult mental health-related physician office visits by specialty and selected patient characteristics. Data from the 2012–2014 National Ambulatory Medical Care Survey (NAMCS) were used for these analyses.
