[Principles and models for data sharing agreements with AI/AN communities](#) [1]

American Indian/Alaska Native (AI/AN) tribal governments are sovereign entities with inherent authority to regulate all affairs on research. This paper aims to provide guidance for researchers and their tribal partners on how to develop data sharing agreements. It discusses research ethics, tribal sovereignty over research, research agreements (including a model data sharing agreement) and data sharing and ownership.

Populations: Racial and Ethnic Groups, American Indians and Alaska Natives

Settings: American Indian/Alaska Native Settings

About Suicide: Data and Statistics

Planning and Implementing: Finding and Using Data, Partnerships and Coalitions
