New Hampshire Gun Shop Project [1]

This webpage describes the New Hampshire Gun Shop Project, a project guided by the NH Firearm Safety Coalition, a partnership between mental health and public health practitioners, Harvard’s Means Matter Project, firearm retailers, and firearm rights advocates. The project developed and disseminated products with and for firearm retailers and range owners on ways they can help prevent suicide. 48% of commercial firearm retailers in NH are displaying at least one product developed by the coalition.
